Discussion:

Director Snyder stated that he is uncomfortable with the task orders, he thinks it's the board responsibility to watch anything over \$25,000.00. He appreciates the work that Marketing, STRADA, Wendel, and WRA are doing, but not comfortable with it being done as a task order. He strongly suggested that BJCTA get away from task orders and start monitoring the type of money that is being spent out the door.

Director Mauldin asked if she could speak to Director Snyder comment. Director Mauldin stated that she was not in favor for the task order in the beginning. However, I have become an advocate for task orders because in the climate that we are in, it's good to have specific task that the payments are directly in line with. Director Mauldin felt that the task orders have been helpful. Task Orders allows BJCTA to use the best firms on the list that can handle what is needed at that time.

Director Topping stated that when we have a number of firms as such, it looks as if Collusion is happening. We should be very careful how we look at these firms in regards to the work being performed. Making sure BJCTA is being a good steward of the money being spent.

B. Departmental Highlights (Operations, Maintenance, Customer Service & Marketing, Grants, Procurement, Planning& Development, Administration) Included in Board Packets for Review.

Discussion:

Director Snyder expressed to the board that he had some questions. He asked the Director of Communications why BJCTA selected the Friday before 4th of July to have a ribbon cutting.

Ronda Robinson replied, it was a combination of things; the Mayor's availability, the building being complete, etc.

Director Snyder stated to the Planning Manager, looking at the ridership numbers, it shows that BJCTA is down 2.9 % this month. From doing the numbers himself, it showed 10.6%.

Ms. Murdock asked if she could speak to that, in the past BJCTA has been counting people using fare boxes. The board invested \$3 Million on new technology. Now we have the automatic passenger counter. The numbers are actually up because we count the people instead of fares.

Director Snyder stated to Finance and Human Resources department that he heard it was a double payment on salary.

Ms. Murdock explained that BBVA Compass Bank accepted that it was an error on their behalf and everything has been handled.

All minutes are prepared according to Robert's Rule of Order. If additional information is needed, you may request a copy of the digitized recording from the Board Support.

Director Snyder stated that the board only hear the good things, but wanted to also hear the bad as well. He missed the committee meeting but the minutes should bring you up to date with what is going on. He stated to the Director of Maintenance that there was a dip in the road miles and service for the month.

Ron Sweeney replied saying we are steady making moves to see more improvements.

Director Snyder stated that the On Time was 67% so we are not being on time, maintenance is not meeting standards, the budget is in the Red, which is a good, but BJCTA is not meeting the metrics with day-to-day operations.

Several of the routes are experiencing the traditional summer month decline as schools are closed and vacations begin. However, our best performing routes continue to do well and remain stable. To date our strongest routes are in Bessemer.

- **Route 1-South Bessemer** had an increase of 917 passenger this August compared to last year. **Route 45-Bessemer-Jonesboro** is up by 3,236 passengers according to the new APC technology. - On August 21, 2017, the Lawson State Cougar Express began to provide both students and instructors transportation between Lawson State’s two (2) campuses.
- Operations continues to optimize all forms, and digitize them for Supervisor tablets to ultimately operate paperless.
- It is of great importance that there is always an open line of communication with the service area communities. On August 10, 2017, Operations attended the Central Park Community Meeting held at the Five Points West Library
- Operations is diligently working to revise all Standard Operating Procedures (SOP) within the department. (On-going Process)
- Because departmental growth is important, the Operations Department has offered several opportunities for its staff to attend developmental workshops and seminars. With a main focus being on flourishing the department’s speech preparedness and linguistic skill set

2.0 Paratransit

- Paratransit began the Operator Sign-Up for the September Run Bid on August 28, 2017.
- Paratransit is pleased to announce that two (2) new operators have been released from training, rendering a total of 33 Paratransit operators.
- Paratransit continues to work with Route Match for additional training with the second phase (IVR). Currently the IVR system is being tested on five (5) actual clients with more feedback to follow.
- Communication between paratransit dispatchers and reservationists has greatly improved. A system has been developed in which reservationists and dispatchers communicate through emails, keeping each other informed of cancellations, no shows, and all related passenger trip information. Additionally, dispatchers have assisted with training reservationist on how to look up passenger information. Reservationists are getting better at assisting our clients without a high volume of calls to the dispatcher.
- Significant improvements have been made between dispatchers and clients. Phone calls from clients have decreased as a result of the department being proactive in keeping them informed of issues that would affect their trips, particularly bus breakdowns and inclement weather. Both dispatchers and reservationists have been instructed to notify clients immediately in such cases.
