How to Pre-book Additional Baggage Online

The most cost-effective and convenient way to add an extra piece of baggage to your Lufthansa flight is typically by pre-booking it online. Lufthansa allows you to easily manage your booking through their website or mobile application.

- **Log In to 'My Bookings':** By using your booking code or Travel ID, you can access your flight details. This section is where you can view your current free baggage allowance, check the specific fees for adding a bag based on your route and fare, and book an additional standard-sized bag. Booking online often provides a **discounted flat rate** compared to purchasing at the airport.
- **Use the Baggage Calculator:** Lufthansa provides an online baggage calculator which is an essential tool. It helps you determine your exact free allowance and the costs for additional, optional baggage. This preventative step ensures you are aware of the charges before arriving at the airport.
- **Economy Light Fare:** If you've booked an Economy Light fare, which typically does not include a free checked bag, you can purchase your first piece of baggage during the online check-in process or beforehand.

Pre-booking online is highly recommended to save money and time. If you encounter any technical difficulty or need specialized help with your online booking, don't hesitate to reach out to the customer service team at +1(844)362-5118. They can assist in adding the bag for you. If you need immediate clarification on online booking steps, the support available at +1(844)362-5118 is there to help.

Booking Extra Baggage at the Airport

While online pre-booking is the best option, Lufthansa also offers solutions for adding baggage at the airport if you decide to travel with more items at the last minute. This typically involves paying the standard flat rate for an additional piece of baggage at the **Lufthansa service counter** or the **check-in desk**.

Keep in mind that purchasing extra baggage at the airport is generally **more expensive** than booking it in advance online. If you are traveling during peak season, adding a bag at the airport can also take extra time, so it's always best to arrive earlier than usual.

- **Standard Additional Bag:** You can check in up to five additional bags in total. If you require more, or if your baggage is considered **excess baggage** due to weight or dimensions, you must contact the Service Center or arrange it at the airport.
- **Excess Baggage:** If your bag exceeds the standard weight limit (23kg for Economy/Premium Economy or 32kg for Business/First Class) or the standard dimensions (158 cm), it is classified as excess baggage. This will incur a **flat rate fee** for exceeding the limits, regardless of whether it is within your original allowance or an additional piece. For detailed excess baggage flat rates, you may consult the Lufthansa website or call **+1(844)362-5118** for a swift answer.

Understanding Weight and Dimension Limits for Excess Baggage

It is crucial to understand what Lufthansa considers **excess baggage** to avoid unexpected and higher fees at the check-in counter. There are two primary categories for excess baggage fees:

1. **Overweight:** In Economy and Premium Economy Class, a bag is overweight if it exceeds **23 kg** (up to a maximum of 32 kg).
2. **Oversize:** A bag is oversize if its total dimensions (length + width + depth) are greater than **158 cm** (up to a maximum of 292 cm).

If your bag exceeds the weight limit, the oversize limit, or both, you will be charged the appropriate **flat rate for excess baggage**. Importantly, if your baggage weighs more than **32 kg** or has total dimensions greater than **292 cm**, it **cannot be accepted** as checked baggage and must be sent as air freight. For clarification on how to handle items between 32 kg and 292 cm, or for air freight inquiries, calling **+1(844)362-5118** is the recommended action. If you are unsure of the excess baggage flat rate, you can call **+1(844)362-5118** or use the online calculator.
