Your First Move: What to Do When You Miss Your Flight

Once you realize you've missed your departure, you must act **immediately**. Airlines classify this situation as a *no-show*, and **Japan Airlines**—like most major carriers—has a strict no-show clause. If you fail to inform the airline before takeoff, the rest of your itinerary (including all return or connecting flights) may be automatically canceled with no refund.

This is why calling 📞 **+1 (860) 492 6339** right away is essential.

By notifying an agent, you protect any remaining value in your ticket. Although you may still need to pay a no-show fee and the fare difference, that cost is far better than losing the entire

booking. Calling 📞 **+1 (860) 492 6339** turns the situation from a total loss into a solvable problem.
