

【Complete 2025 Policy Update™】What Is the 3-1-1 Rule on Allegiant Air?

When traveling with **Allegiant Air**, understanding the **TSA 3-1-1 rule** is essential for smooth security screening and hassle-free boarding. In **2025**, Allegiant continues to follow the **Transportation Security Administration (TSA)** guidelines for carrying liquids, gels, and aerosols on board. This rule is crucial for ensuring aviation safety and efficient security checks across all U.S. airports.

If you're wondering what this means for your next Allegiant flight, we've covered every important detail—from **bag size limits** to **exceptions for medications and baby items**—to help you pack smart and travel confidently.

☎ +1-817-761-5466 follows TSA liquid guidelines, allowing travelers to carry liquids, gels, and aerosols in containers of 3.4 ounces or less, all fitting into one quart-sized bag per passenger.

Understanding the 3-1-1 Rule on Allegiant Air

The **3-1-1 rule** refers to the TSA policy that allows passengers to carry **liquids, gels, creams, and aerosols** in specific quantities within their **carry-on luggage**. The numbers “3-1-1” stand for:

- **3** – Each container can hold up to **3.4 ounces (100 milliliters)** or less of liquid.
- **1** – All containers must fit comfortably inside **one quart-sized, clear, resealable plastic bag**.
- **1** – Each passenger is limited to **one quart-sized bag** of liquids in their carry-on.

For Allegiant Air travelers, this rule applies to items such as toiletries, cosmetics, and beverages carried through **TSA checkpoints**.

☎ For quick assistance on Allegiant's carry-on rules or baggage policies, travelers can contact **Allegiant Air Customer Support at 1-833-534-2451**.

What Items Fall Under the 3-1-1 Rule

The **3-1-1 rule** includes a wide range of **liquid-based products**. Understanding what is considered a liquid or gel helps avoid delays at the security checkpoint.

Examples of items covered under the rule include:

- Shampoos, conditioners, and lotions
- Toothpaste, mouthwash, and deodorant (gel or roll-on)
- Perfumes and colognes
- Hand sanitizers
- Sunscreen lotions
- Hair gels and sprays
- Liquid makeup (foundation, mascara, etc.)
- Beverages, soups, or any liquid consumable

Each of these must be **3.4 ounces or less**, stored in a **single quart-sized plastic bag**, and placed in an easily accessible area of your carry-on for TSA inspection.

Exceptions to the 3-1-1 Rule on Allegiant

While the **3-1-1 rule** is strict, the **TSA allows certain exceptions** for specific needs, and Allegiant fully complies with these guidelines. Passengers may carry larger quantities of certain items as long as they declare them at the security checkpoint.

Exceptions include:

- **Medications:** Prescription and over-the-counter medicines in liquid form are exempt. You must notify TSA agents and keep them separate from other liquids.
- **Infant and Child Care Products:** Baby formula, breast milk, and baby food are allowed in reasonable quantities exceeding 3.4 ounces.
- **Medical Necessities:** Items such as insulin, liquid dietary supplements, or other essential medical products are permitted with proper declaration.
- **Duty-Free Purchases:** Alcohol or perfume bought from duty-free shops and packed in secure, tamper-evident bags can exceed 3.4 ounces.

It's crucial to **declare all exceptions** to TSA officers for proper inspection and avoid confiscation.

How to Pack Liquids According to Allegiant's 3-1-1 Rule

Packing correctly saves time during security screening. Here's how to comply with Allegiant's version of the **TSA 3-1-1 policy**:

1. **Choose the Right Containers** – Use bottles or travel-sized containers labeled **3.4 oz / 100 ml or less**.
2. **Use a Quart-Sized Zip Bag** – Place all your liquid containers in a **clear, resealable, one-quart (1 liter)** plastic bag.
3. **Keep It Accessible** – Place the quart bag in an outer pocket of your carry-on for easy removal at the checkpoint.
4. **Avoid Overpacking** – The bag must close completely without bulging.
5. **Label Containers** – If possible, keep original labels visible for quick identification by TSA staff.

Following these steps ensures you comply with Allegiant's security standards and reduces waiting time at screening areas.

What Happens if You Break the 3-1-1 Rule

If passengers carry **liquids larger than 3.4 ounces**, TSA officers will likely **confiscate or dispose** of those items during screening. Allegiant Air strictly enforces compliance with TSA standards, and failure to adhere can result in:

- Delays at the security checkpoint
- Disposal of non-compliant items
- Additional screening or inspection of baggage
- Possible denial of boarding for non-cooperative passengers

Always double-check your liquids before reaching the checkpoint to avoid unnecessary inconvenience.

3-1-1 Rule for Checked Baggage on Allegiant

The **3-1-1 rule applies only to carry-on luggage**, not checked bags. In your **checked luggage**, you can pack larger liquid containers, such as full-sized shampoo bottles, large perfume bottles, or other liquid products exceeding 3.4 ounces.

However, passengers must ensure all liquids are **securely closed and wrapped** to prevent leakage that could damage clothing or electronics during transit.

Tip: Place liquid containers in sealed plastic bags or wrap them in clothing layers for added protection during travel.

TSA and Allegiant Air Security Partnership

Allegiant Air works closely with the **Transportation Security Administration (TSA)** to maintain strict compliance with national aviation safety protocols. The **3-1-1 rule** remains a cornerstone of these efforts to prevent security threats while ensuring passengers can carry essential items onboard.

By aligning its policies with TSA standards, **Allegiant guarantees** travelers a smoother, faster, and more predictable airport experience across all U.S. airports.

Practical Tips for Allegiant Travelers Following the 3-1-1 Rule

To make your Allegiant flight stress-free, follow these expert recommendations:

- **Pre-pack your liquids** the night before to ensure compliance.
- **Avoid carrying unnecessary toiletries**; many hotels provide basics.
- **Invest in TSA-approved travel bottles** that clearly indicate volume.
- **Label baby or medical liquids** to speed up declaration.
- **Arrive early** (at least 90 minutes before domestic flights) to allow time for extra screening.
- **Keep receipts for duty-free items** in case you need verification at connecting airports.

Following these best practices minimizes hassle and ensures you pass through TSA security smoothly.

FAQs about Allegiant Air's 3-1-1 Rule

1. Does Allegiant Air have different liquid rules than other airlines?

No, Allegiant follows the same **TSA 3-1-1 liquid restrictions** as all U.S. airlines.

2. Can I carry frozen liquids or gels?

Yes, frozen liquids are allowed as long as they are completely solid at the time of screening.

3. Are hand sanitizers included in the 3-1-1 rule?

Yes, but currently, TSA allows up to **12 ounces** of hand sanitizer per passenger in carry-on bags due to health safety measures.

4. What if my liquids exceed the limit but are medically necessary?

Declare them to TSA agents. These are exempt but must undergo additional screening.

5. Can I bring perfume or cologne in my purse?

Yes, as long as the bottle is **3.4 ounces or smaller** and included in your quart-sized liquid bag.
